## Speed Bump Selections

Below is our three most popular models, we can also supply ANY style including temporary, construction style (to allow power cables or air hoses under them) and other great styles!

### Solid Composite Speed Bump:

- One-person transportation, installation, and relocation save staff-hours.
- **Speed Bumps are solid and maintenance-free and never need painting!**
- Speed Bumps resist damage from sun, salt, oil, and chemicals.
- Speed Bumps are easy to move to change traffic patterns.
- Speed Bumps slow traffic to help prevent costly accidents to your property.
- Speed Bumps are safety yellow and made of 100% recycled material.
- **Speed Bumps are 2" high by 10" wide and 4', 6' or 9' lengths.**
- All hardware included spikes or lags and anchors!

### EPDM Rubber Speed Bump:

- At **3" tall and 14"** wide this bump means business!
- Weight of the bump alone will hold it in place.
- Safety yellow color is molded in.
- **Available in the following sizes - 6, 8, 10, 12 Or 16 ft long!**
- EPDM Rubber stays flexible in ANY weather condition

### Striped Rubber Speed Bump:

- Striped Rubber Speed Bumps are durable, visible, flexible, removable.
- Rubber Speed Bumps are made from 100% recycled rubber.
- Speed Bump stands up to traffic, oil, weather and abuse.
- **Speed bump has reflective yellow stripes and "cat eye" reflectors molded into them to make it highly visible at night!**
- Speed Bump conforms to contours of the road.
- Base has two 1 1/4" channels for cabling, piping or drainage.
- **Bumps are 12" wide x 2.5" tall, 4 or 6 ft long**
- Optional 9" end caps for a rounded look
- All hardware included spikes or lags and anchors!
