FABRICS: (Note: We only use only 3rd Party Tested ANSI, NFPA, and ASTM Fabrics)

Polyester Summer Micro-Mesh: Micro-Mesh is a bit tougher, a little heavier at 3.2 OZ, and a little more durable than a standard Mesh. This fabric works better for all applications where the vest must hold its shape or when multiple pockets are needed. Micro-Mesh is breathable, will not fray, or shred when torn, and has become the Mesh of choice for all our summer Mesh vest products. **Micro Mesh also is available in NFPA Flame Resistant version for use on select FR summer vests.**

Polyester All Season Breathable Knit: A middle weight 3.65 OZ fabric. Breathable and cool in summer, allows rain and snow to pass through in winter. This all season fabric "breathes", but will not fray or shred.

Also available in NFPA Flame Resistant version for use on select FR all-season vests.

"Blue Jean" Tough Poly-Cotton: Feels like "Blue Jeans" but tougher. Good in Construction where abrasion resistant fabrics are needed. Also in Multi-colors to color code Public Safety Response Teams.

Water Repellent Fabrics: Coated Nylon Middle Weight fabrics are used primarily for fall, winter, and spring wool and quilt lined vests, jackets and coats. **Coated water repellent nylon is also available in NFPA Flame Resistant (FR).**

Heavy Weight Nylon Coated Tear/Abrasion resistant Cordura is used for select Pro's Choice Timber, Survey, Construction Vests, and also select Construction Jackets.

Specialty FR Fabrics: NFPA Fire Resistant Polyester fabrics provide an extra level of FR protection but is not rated for arc. **ASTM, & NFPA 70E** Arc rated Fire Resistant Fabrics include FR Cotton, FR Acrylic Blends, FR Nomex®, and FR Modified Acrylics used in Higher Risk Electrical/Refinery/High Voltage/Metals/ Welding applications.

For more on FR fabrics, see the FR Technical Brief.

REFLECTIVE: (Note: We supply only Retro-reflective for greater visibility!)

Silver Fabric Reflective: As a silver "Reflective Fabric", 3M™ Scotchlite™ Reflective Material is lighter weight, soft, and flexible in movement. **"FR" silver reflective version meets NFPA 701, ASTM & 70E Arc.**

Silver reflective reflects heat from the sun, and will not crack in cold, making this the **best choice** for Mesh vests, T-Shirts, Sweatshirts, & Jackets/Coats used in severe hot and cold climates and conditions.

Orange, Yellow, & White Vinyl Reflective: 3M™ Scotchlite™ Reflective Material in vinyl comes in Orange, Yellow, and White to offer flexibility in reflective color contrast against Orange and Yellow fabrics in product design. Sealed vinyl reflective contrasts against most fabrics for slightly better all-around daylight reflective performance, but is not as durable and long lasting in severe climates and conditions.

Woman Owned, Family run - We care and it shows!

Sizing:

As much as possible, we standardized our sizing to allow customers to select the right size the first time. Chest size and armholes are predictable garment to garment. Garments Identified as "Short Waist" accommodates Tool Belts (approx. 24" length), "Road and Construction" are standard length for Multi-Use, (approx. 27" length), DOT designs are long waist and also work well for "Tall" needs (approx. 30" length). See individual products for descriptions.

Most Vests, Shirts, Jackets, or Coats can also be worn over worn over winter layers. If winter layers will be used, measure with these winter layers on.

The Jackets and Coats use a "Raglan" sleeve design for free arm movement. Thinsulate(TM) Insulation, and FR Arctic Quilt linings are naturally warm. Jackets use silver 3M™ Scotchlite™ Reflective Material. Order size below for Lined or Unlined jackets. Patterns will accommodate normal work clothing layers comfortably. **If winter layers will be used under jackets, measure with these winter layers on.**

PANTS are OVERSIZE DESIGNS to fit over normal work clothing/boots comfortably. Pants include elastic and drawstring waist to adjust sizing. **Measure with normal work pants on to insure proper fit.**

LENGTH IS PROPORTIONAL W/SIZING & GARMENT TYPE AS SHOWN.

SCREEN PRINTING PRICE, POSITION AND COLOR OPTIONS:

Customers may select up to five colors for screening of company logos and/or names. The most common positions are across the back (Size 8 1/2 x 11) and left front chest areas (Size 4 x 4). The pricing matrix applies to these areas. All prices are PER COLOR, PER LOCATION, extra for difficulty may apply, see below.

SCREEN SET-UP:

Acceptable Art File Formats: Adobe ACROBAT™ PDF, Adobe ILLUSTRATOR™, Adobe PHOTOSHOP™ Images (JPEG or TIFF Preferred) Letters and Graphic files must be on a WINDOWS™ operating system.

CAMERA-READY ART FEE \$22.20 per color (See Below for definition of Camera Ready Art)

FIRST TIME: SET UP FEE \$33.30 per color (creation of screen & initial set-up)

REORDER SET UP FEE \$13.00 per color (set-up and screen cleaning).

Add a 2" x 3" USA flag decal to ANY product we make. Just \$3.00 each

SCREEN "Camera Ready" ART:

Camera Ready Art is clear, sized to 8 1/2 x 11 back and/or 4 x 4 front with colors separated for immediate screen creation from your image. Images are usually sent via E-mail directly to Hy-Viz. For a nominal charge **per color**, Hy-Viz can prepare camera-ready art on your behalf from images off your company letterhead, business card, or website images. Maximum screen size is 8 1/2 x 11 on the back (the size of a sheet of paper) and 4 x 4 on the front (the size of a shirt pocket). Please call for size or design questions.

Art Charge, Set-up, & Screen Print Prices are ALL per Color, per location.

Wholesale Screen Print Price Matrix:

QUANTITIES	1 COLOR	2 COLOR	3 COLOR	4 COLOR	5 COLOR
1-9	\$ 3.70	\$ 4.95	\$ 5.55	\$ 6.20	\$ 7.45
10-29	\$ 3.45	\$ 4.65	\$ 5.15	\$ 5.75	\$ 6.65
30-99	\$ 3.10	\$ 4.20	\$ 4.65	\$ 5.00	\$ 5.90
